DayStarr is a limited liability company organized in the State of Michigan, and has been providing internet services in mid-Michigan since 2001. It has over 5,000 subscribers in service areas including Owosso, Corunna, Ovid, Saint Johns, Perry, Laingsburg, Chesaning, Bancroft, Durand, Morrice, and Flint. DayStarr provides phone and internet service to business, residential customers as well as ethernet services to wholesale customers. DayStarr's delivery mechanism has changed over the years with technology, currently all our customers have internet service provided over a fiber optic network.

DayStarr acquired its numbering resources as a CLEC, but due to changing technologies and the increased cost of managing the SS7 network, it wishes to transition to being an Interconnected VOIP Provider with Numbering Resources. This will allow DayStarr to move away from operating its costly SS7 switch platform and lease PSTN Connection Services through their PSTN Host Provider. DayStarr currently operates in the 344, 346, and 348 LATAs and intends to begin implementing its Interconnected VOIP network in those Michigan LATAs.
