)

APPLICATION OF ConnectTo Communications

FOR AUTHORIZATION TO OBTAIN NUMBERING RESOURCES

ConnectTo Communications, Inc DBA: ConnectTo Communication ("ConnectTo Communications"), a provider of interconnected Voice over Internet Protocol ("VoIP") service, hereby respectfully requests authorization from the Federal Communications Commission

("FCC" or "Commission") for numbering resources pursuant to Commission Rule Section 52.15(g)(3)(ii). The Company is Telecommunications providers, CLEC In California, has ETC designation and Provides high-speed internet, phone, and TV entertainment services in California and would like to expand to other states in Unites States.

Under the Commission's Numbering Order, an interconnected VoIP provider may obtain numbering resources from the Numbering Administrator upon a showing that it is authorized to provide service in the area for which the numbering resources are requested. Such authorization may be obtained upon an application to the Commission containing the information detailed in Section 52.15(g)(3)(ii)(A)-(N) of the Commission's Rules. The number resources that are the subject of this Application will be used to provide interconnected VoIP services In all US States.

ConnectTo Communications has negotiated an Interconnect Agreement with Inteliquent, a Competitive Local Exchange Carrier and subsidiary of Sinch Networks, to serve as ConnectTo Communications' access homing tandem and to route local and access traffic (both originating and terminating) to the PSTN. ConnectTo Communications will

interconnect with and broadcast Inteliquent's tandem platforms for the purpose of managing ConnectTo Communications assigned Operating Company Number (OCN OOU). To further support this application, ConnectTo Communications provides the following additional information:

State List:

ConnectTo Communications, Inc. currently operates in California and has existing interconnection agreements. ConnectTo Communications will start by expanding to adjacent states to California and then progressively extend numbering resources to all other U.S. states and territories under this authorization.

State Notification:

ConnectTo understands its obligation to notify each relevant state commission at least 30 days before requesting numbering resources.

Numbering Resource Request:

ConnectTo acknowledges the requirement to submit evidence of FCC authorization, state notifications, and facilities readiness to NANPA or the PA when requesting numbering resources.

ConnectTo World, Inc DBA: ConnectTo Communication

B. § 52.15(g)(3)(ii)(B)

ConnectTo Communications hereby acknowledges that authorization to obtain numbering resources under Section 52.15(g) of the Commission's Rules is subject to compliance with applicable Commission numbering rules, to the numbering authority delegated to the states, and

the state laws, regulations, and registration requirements applicable to businesses operating in each state where ConnectTo Communications seeks numbering resources. The Company hereby also acknowledges that this authorization is subject to compliance with industry guidelines and practices regarding numbering, as applicable to telecommunications carriers.

C. § 52.15(g)(3)(ii)(C)

ConnectTo Communications hereby certifies that it will not use the numbers obtained pursuant to an authorization under Section 52.15(g) to knowingly transmit, encourage, assist, or facilitate illegal robocalls, illegal spoofing, or fraud, in violation of robocall, spoofing, and deceptive telemarketing obligations under 47 CFR §§ 64.1200, 64.1604, and 64.6300 et seq., and 16 CFR 310.3(b).

D. § 52.15(g)(3)(ii)(D)

ConnectTo Communications hereby certifies that it has fully complied with all applicable STIR/SHAKEN caller ID authentication and robocall mitigation program requirements and filed a certification in the Robocall Mitigation Database as required by 47 CFR §§ 64.6301 to 64.6305. (Exhibit D)

E. § 52.15(g)(3)(ii)(E)

ConnectTo Communications hereby certifies that it complies with its 911 obligations under part 9 of the Commission's rules, as well as with the provisions of the Communications Assistance with Law Enforcement Act, 47 U.S.C. § 1001 et seq. Evidence that ConnectTo Communications has complied with these requirements is attached hereto as Exhibit A. The Company requests confidential treatment under the Commission's rules for parts of Exhibit E.

F. § 52.15(g)(3)(ii)(F)

ConnectTo Communications hereby certifies that it complies with the Access Stimulation rules under 47 CFR § 51.914.

G. § 52.15(g)(3)(ii)(G)

ConnectTo Communications hereby acknowledges that it must file requests for numbers with the relevant state commission(s) at least 30 days before requesting numbers from the Numbering Administrators.

H. § 52.15(g)(3)(ii)(H)

ConnectTo Communications hereby sets forth its capability to provide service within 60 days of the numbering resources activation date. An interconnect agreement demonstrating the access to the platform and capability attached to this application as Exhibit B. ConnectTo Communications is a Competitive Local Exchange Carrier (CLEC) operating in California and has interconnection agreements with AT&T and Verizon. Additionally, ConnectTo has all required interconnection agreements with incumbent local exchange carriers (ILECs) to support its operations. Also attached, as Exhibit A and Exhibit B, is evidence of interconnection to the PSTN through its MSA/ICA with LECs in California.

I. § 52.15(g)(3)(ii)(1)

Proof that ConnectTo Communications has filed FCC Forms 477 and 499 is attached hereto Attachment. (Exhibit G)

J. § 52.15(g)(3)(ii)(J)

ConnectTo Communications hereby certifies that it complies with its Universal Service Fund contribution obligations under 47 CFR part 54, subpart H, its Telecommunications Relay Service contribution obligations under 47 CFR § 64.604(c)(5)(iii), its North American Numbering Plan and Local Number Portability Administration contribution obligations under 47 CFR §§ 52.17 and 52.32, its obligations to pay

regulatory fees under 47 CFR § 1.1154, and its 911 obligations under 47 CFR part 9. ConnectTo Communications' FRNs are 0013921614 and 0021974498 also 499 Filer ID is 826243 and 829452.

K. § 52.15(g)(3)(ii)(K)

ConnectTo Communications certifies that it has the financial, managerial, and technical expertise to provide reliable service. It is financially stable, led by a strong, experienced management team with substantial managerial experience in the telecommunications industry and has sufficient technical expertise and infrastructure in place to provide reliable numbering services. The Company's key management and technical personnel have been managing ConnectTo Communications CLEC and MVNO services for more than 20 years. None of the ConnectTo Communication personnel are being or have been investigated by the Commission or any law enforcement or regulatory agency for failure to comply with any law, rule, or order, including the Commission's rules applicable to unlawful robocalls or unlawful spoofing.

L. § 52.15(g)(3)(ii)(L)

The list containing the name, residency, citizenship and principal businesses of all entities that directly or indirectly own at least ten percent of the equity of ConnectTo Communications

Armen Gulovan, 50%, US Citizen, Residing in California.

Aram Nadjarian, 50% US Citizen, Residing in California.

M. § 52.15(g)(3)(i)(M)

ConnectTo Communications hereby certifies that no party to this application is subject to a denial of Federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. § 862.

N. § 52.15(g)(3)(ii)(N)

II. ACKNOWLEDGEMENT OF CONDITIONS IN SECTION 52.15(g)(3)(x)

As required by Section 52.15(g)(3)(x), ConnectTo Communications will maintain the accuracy of all contact information, certifications, and ownership or affiliation information in this application, and will notify the Commission within 30 days of any changes to the above.

O. 47 CFR § 52.15(g)(3)(ii)(E)

ConnectTo Communications certifies that it complies with all applicable regulations regarding 911 emergency services and the Communications Assistance for Law Enforcement Act (CALEA), ensuring that emergency calls are properly routed to Public Safety Answering Points (PSAPs). ConnectTo Communications is a CLEC and has 911 connectivity and is already routing 911 calls. (Exhibit F)

III. CONCLUSION

Pursuant to Section 52.15(g)(3)(ii) of the Commission's Rules, ConnectTo Communications respectfully requests the Commission grant this application for authorization to obtain numbering resources.

April 17, 2024

ConnectTo Communications, Inc.

Robocall Mitigation Plan

(December 2024)

Introduction

This Robocall Mitigation Plan (RMP) details the reasonable steps and actions taken by ConnectTo Communications, Inc. ("ConnectTo") to mitigate and eliminate illegal robocalling. ConnectTo has implemented STIR/SHAKEN, and has an ongoing commitment to identify and help alleviate illegal robocalling by pre-qualifying prospective customers, monitoring existing customers for traffic patterns indicative of prohibited robocalls, and working with other providers and regulatory agencies in combatting fraudulent voice activity.

All calls that originate on its network are subject to a robocall mitigation program. All telecom services rely, in part, on ConnectTo's underlying providers for STIR/SHAKEN implementation and other robocall mitigation efforts.

The Company is not a foreign voice service provider.

The Company does not sell services to international call originators using North American Numbering Plan Numbers.

Compliance History

In the past two years, the Company has not been the subject of a formal Commission, law enforcement, or regulatory agency action or investigation with accompanying findings of actual or suspected wrongdoing due to the filing entity transmitting, encouraging, assisting, or otherwise facilitating illegal robocalls or spoofing, or a deficient Robocall Mitigation Database certification or mitigation program description.

No prior RMD certification has been removed by the Commission. The Company has not been prohibited from filing in the Robocall Mitigation Database by the Commission.

The person within the Company responsible for addressing all robocall mitigation-related issues, is:

Name: Aram Ter-Martirosyan

Title: CTO/CIO

Department: IT

Telephone Number: (818) 546-4601

Email Address: aram@connectto.com

STIR/SHAKEN Implementation

ConnectTo has fully implemented the STIR/SHAKEN authentication framework across the entire IP portion of its network, and all calls it originates are compliant with § 64.6301(a)(1) and (2). This compliance is due, in part, to ConnectTo's underlying service providers being STIR/SHAKEN compliant within the IP portions of their networks.

The Company uses a third-party vendor/underlying carrier to sign its calls and ConnectTo has its own token. ConnectTo does not allow its customers to spoof CallerID, so any outgoing CallerID can easily be traced back to ConnectTo's customer.

In addition to analytics provided by its underlying service provider(s), the Company uses a third-party call analytics vendor, Transnexus. ConnectTo utilizes AI-driven call analytics systems to monitor and flag suspicious patterns, such as high-volume short-duration calls or calls to disconnected numbers. Calls flagged as likely illegal are automatically blocked.

Traceback Requests

The Company commits to respond fully within 24 hours to all traceback requests from the Commission, law enforcement, and the industry traceback consortium, and to cooperate with such entities in investigating and stopping any illegal robocallers that use its service to originate calls.

If a traceback exposes an existing customer as the source of fraudulent robocalls, or as having transmitted fraudulent robocalls, a demand for an explanation and verification of mitigation of the traffic is issued to the customer. If the fraudulent traffic is not remediated, ConnectTo initiates blocking of all traffic from the offending customer.

The Company's point of contact to handle traceback requests is:

Name: Aram Ter-Martirosyan

Title: CTO/CIO

Department: IT

Telephone Number: (818) 546-4601

Email Address: aram@connectto.com

Know Your Customer

ConnectTo has implemented Know Your Customer (KYC) policies when onboarding new or renewing customers to ensure that such customers and providers do not or are not likely to engage in any prohibited conduct. Post-onboarding, ConnectTo continuously monitors call traffic for unusual patterns or violations of its terms of service.

ConnectTo's KYC practices include:

1. Customer Information: Potential clients must provide government-issued identification, proof of business registration, contact details, and a valid tax ID.

2. Caller ID Restrictions: Customers are required to use valid, non-spoofed caller IDs. Invalid or unverified caller IDs are blocked.
3. Payment Limits: Payments are monitored, and suspicious activity, such as unusually large or frequent transactions, is flagged for review.
4. Ongoing Monitoring: Customer call traffic is continuously analyzed for compliance, and accounts exhibiting irregular patterns are reviewed.
5. Account Vetting: ConnectTo reviews business use cases to ensure services are used only for legitimate purposes, terminating accounts if illegal activity is detected.

Additionally, prospects are required to agree to ConnectTo's strict Acceptable Use Policies (AUP) prohibiting, among other things, the act of fraudulent voice activity as a condition of doing business with ConnectTo.

ConnectTo requires all customers to comply with the Telephone Consumer Protection Act and its implementing regulations, the Telemarketing Sales Rule, regulations implementing the FCC's national Do-Not-Call registry, and all other rules and regulations governing the sending of telemarketing calls and/or robocalls.

Telephone Number Validation:

A Telephone Number ("TN") based caller identity is the originating phone number included in call signaling used to identify the caller for screening purposes that is uniquely associated with the subscriber. A subscriber is permitted to use a TN as a caller identity if a TN is directly managed by ConnectTo and/or obtained by ConnectTo from ConnectTo's underlying carrier for use by the subscriber.

For subscribers with multi-line telephone systems, ConnectTo and its underlying provider(s) only allow calls to be connected if the originating number matches one of the TN's assigned to the subscriber. This screening capability enables an automated and secure method of validating originating telephone numbers.

Ongoing Robocall Mitigation

ConnectTo monitors and examines customer traffic to detect suspicious call activity and/or calling patterns. When ConnectTo and/or its underlying providers detect network usage patterns consistent with illegal robocalls or suspect illegal robocalling is taking place, ConnectTo will immediately seek to identify the party that is originating, terminating, or routing these calls so that it may take appropriate action. The actions taken may include, but are not limited to, initiating a traceback investigation; verifying that the originating customer owns or is authorized

to use the Caller ID number; determining whether the Caller ID name sent to a receiving party matches the customer's corporate and/or d/b/a name; block (or initiate third-party blocking) the party's ability to originate, terminate, or route calls on the network; and/or providing notice to law enforcement authorities.

As part of its plan to mitigate and prevent any originating robocalls, ConnectTo is committed to early identification and investigation of possible robocalling conditions. Among other things, ConnectTo watches for higher-than-normal subscriber traffic volume, including large bursts of traffic in small timeframes or spikes in usage. ConnectTo also monitors for originating calls of short duration and low call completion percentages and originating calls with sequential "called to" number dialing patterns.

Updating ConnectTo's RMD Submission and RMP

Consistent with FCC Regulations, 47 C.F.R. § 64.6305(d)(5), (e)(5) and (f)(5), ConnectTo will update its submission in the RMD within 10 business days of any change to the applicable information it must provide and update in the RMD.

The Company's RMP continues to develop as the Company and the industry gain expertise and deploy new robocall mitigation strategies and will be supplemented in future updates.
