Re: Mix Networks, Inc., Applicant for Authorization to Obtain Number Resources
Pursuant to Section 52.15(g) of the Commission's Rules

Dear Ms. Dortch:

Pursuant to Section 52.15(g)(3)(i) of the Commission's Rules, Mix Networks, Inc. hereby submits additional information to the full application filed on March 21, 2016 and the addendum filed April 19, 2016.

The information includes the addition of Eric Hernaez, Mix Network's Director of Technology, to meet the application requirement of providing the applicant's key technical personnel as required by 47 CFR 52.15(g)(3)(i)(F)). Mr. Hernaez is not being and has not been investigated by the FCC or any law enforcement or regulatory agency for failure to comply with any law, rule, or order.

Additionally, the signature page of the ATL contract inadvertently left out of the original application is attached.

For any questions regarding this application, please contact Aelea Christofferson at 541-771-8814 or aelea@atlc.com.

Respectfully Submitted,

A handwritten signature in blue ink, appearing to read "Louie M. Holmes, II".

Louie M. Holmes, II

INTELLIGENT VOIP SOLUTIONS AT WORK

**LOCAL NUMBER PORTING
SERVICE ADDENDUM**

1. **Appointment of ATL.** CUSTOMER hereby appoints ATL to act as CUSTOMER's agent for the purpose of undertaking local number porting activities on CUSTOMER's behalf pursuant to the Agreement between ATL and CUSTOMER, of which this Service Addendum is a part.

2. **Local Number Porting Activities.**

2.1. **Port-Ins.** ATL shall use commercially-reasonable efforts to complete local number porting activities on CUSTOMER's behalf when CUSTOMER is the new (winning) local service provider (NLSP) as follows (activities may vary depending on whether CUSTOMER is the new network service provider (NNSP) or is a non-facilities-based provider):

(a) **Ongoing Interface.** ATL will act as CUSTOMER's primary interface with the Number Portability Administration Center (NPAC) and other carriers involved with local number porting.

(b) **CSR Review.** ATL will obtain the customer service record (CSR) from the old (losing) local service provider (OLSP), if available, and determine whether there are any inconsistencies between the data in the CSR and the order for CUSTOMER's service. ATL will report any inconsistencies to CUSTOMER and shall thereafter refrain from carrying out any further porting activities with respect to the order until CUSTOMER has resolved the inconsistencies and notifies ATL that porting can proceed.

(c) **LSR Submission.** ATL will submit an appropriate local service request (LSR) or LSR information to the NNSP if CUSTOMER is not the NNSP. If CUSTOMER is the NNSP, ATL will send an appropriate LSR to the old network service provider (ONSP). In addition, ATL will submit supplemental LSRs and cancellation requests, as requested by CUSTOMER.

(d) **FOC.** ATL will notify CUSTOMER's provisioning contact upon receipt of a firm order confirmation (FOC) and, if applicable, the due date for the port specified in the FOC. Additionally, ATL will notify CUSTOMER if there is no response back from the OLSP within 24 hours, with follow-up at 36 hours in order to avoid a situation where numbers could passively port, due to a lack of response from OLSP.

(e) **Rejects.** ATL will notify CUSTOMER's provisioning contact upon receipt of an LSR rejection. ATL and CUSTOMER shall thereafter cooperate with each other to address the reject and to re-submit the LSR to enable completion of port.

(f) **Due Date Coordination.** ATL, in cooperation with CUSTOMER, will coordinate port due dates, as necessary, with the ONSP.

(g) **NPAC Data Entry/Communications.** ATL will be responsible for submission of all messages, data, and other information into the NPAC in accordance with the current local number porting processes established by the North American Numbering Council (NANC) and will also be the contact point for receipt of related messages from the NPAC. ATL will advise CUSTOMER of conflict notices, port cancellations, and other communications affecting or potentially affecting port-in activities.

(h) **NPAC Data Entry/Communications.** ATL will be responsible for submission of all messages, data, and other information into the NPAC in accordance with the current local number porting processes established by the North American Numbering Council (NANC) and will also be the contact point for receipt of related messages from the NPAC. ATL will advise CUSTOMER of conflict notices, port cancellations, and other communications affecting or potentially affecting port-in activities.

(h) **Provisioning.** ATL, in cooperation with CUSTOMER, will activate switch translations and provide notification to the NPAC to activate the port. CUSTOMER shall be responsible for performing any physical activities required to complete ports. In cases where a coordinated cut-over is required or requested, ATL, in cooperation with CUSTOMER, will negotiate the cut-over time and process. Following port activation by the NPAC, ATL will conduct appropriate testing to verify that calls to ported numbers complete as expected.

LWN

(i) **Troubleshooting.** ATL, in cooperation with CUSTOMER, will address with the ONSP, local service management systems (LSMSs), and the NPAC, as appropriate, problems that arise during the porting process.

2.2. **Port-Outs.** ATL shall use commercially-reasonable efforts to complete local number porting activities on CUSTOMER's behalf when CUSTOMER is the OSLP, as follows (activities may vary depending on whether CUSTOMER is the ONSP or a non-facilities-based provider):

(a) **Ongoing Interface.** ATL will act as CUSTOMER's primary interface with the NPAC and other carriers involved with local number porting.

(b) **CSR.** If a NLSP requests a CSR, ATL, following CUSTOMER's procedures for establishing the authority of the NSLP to obtain the CSR, will furnish the CSR to the NLSP.

(c) **LSR Review.** ATL, in cooperation with CUSTOMER, will review LSRs received from NNSPs and timely respond with a FOC, including a specified due date if necessary, or a reject notification, as appropriate. ATL will respond on behalf of CUSTOMER to communications from the NNSP regarding the cause of a reject notification. In the event of a conflict, ATL will send a conflict message into the NPAC.

(d) **Due Date Coordination.** ATL, in cooperation with CUSTOMER, will coordinate port due dates, as necessary, with the NNSP.

(e) **NPAC Data Entry/Communications.** ATL will be responsible for submission of all messages, data, and other information into the NPAC in accordance with the current local number porting processes established by the NANC and will also be the contact point for receipt of related messages from the NPAC.

(f) **Provisioning.** ATL, in cooperation with CUSTOMER, will remove switch translations at the specified due date and time, or in accordance with negotiated cut-over instructions from the NNSP. ATL and CUSTOMER will establish an operational window/time frame for the removal of switch translations. CUSTOMER shall be responsible for performing any physical activities required to complete ports. In cases where a coordinated cut-over is required or requested, ATL, in cooperation with CUSTOMER, will negotiate the cut-over time and process.

(g) **Troubleshooting.** ATL, in cooperation with CUSTOMER, will address with the NNSP and the NPAC, as appropriate, problems that arise during the porting process, including conflicts and escalations thereof.

2.3. **Provisioning System Access.** CUSTOMER is solely responsible for providing and maintaining a suitable and secure Internet connection to enable ATL to remotely access CUSTOMER's switching equipment and provisioning systems for the purpose of carrying out internal provisioning activities on CUSTOMER's behalf. CUSTOMER must provide ATL with all data, passwords, and other pertinent information required by ATL to perform porting and provisioning activities on behalf of CUSTOMER. ATL will take appropriate steps to maintain the security and privacy of CUSTOMER'S network and password information.

3. **No Proprietary Rights.** Neither ATL nor CUSTOMER has or will have any proprietary or confidential claim to any local telephone number. As ordered by the FCC the End User controls the local telephone number, but does not own it.

IN WITNESS WHEREOF, the Parties hereto have made and executed this Service Addendum by and through their respective authorized representatives, to be effective as of the date and year first above written.
