Re: Request for Confidential Treatment, Application of Telimize LLC for Authority to Obtain Numbering Resources Pursuant to Section 52.15(g) of the Commission’s Rules

Dear Ms. Dortch:

Pursuant to Section 52.15(g) of the Commission’s Rules, Telimize LLC (“Telimize”) hereby submits the enclosed application for authorization to obtain numbering resources (the “Application”) and respectfully requests confidential treatment of the text indicated in the Application and Exhibits A and B contained therein. Consistent with Sections 0.457 and 0.459 of the Commission’s Rules, Telimize has labeled the relevant exhibits “Confidential, Not for Public Inspection.” Confidential treatment in this circumstance is fully consistent with the Administrative Procedure Act (“APA”) and past Commission practice.

The redacted materials in the Application and the Exhibits contain (i) commercially sensitive information that identifies Telimize’s vendors for interconnection, numbering and 911 services, (ii) commercially sensitive information agreements between Telimize and its vendors and (iii) technologically sensitive explanations and diagrams showing how Telimize complies with 911 and

CALEA requirements. Confidential treatment of this information is appropriate under Exemption 4 of the Freedom of Information Act, which apply to information constituting “trade secrets and commercial or financial information” that “would not customarily be released to the public.” See 5 U.S.C. § 552(b)(4); 47 C.F.R. § 0.457(d).

In support of this request, Telimize provides the following information, as provided for under Section 0.459(b) of the Commission’s Rules.

1. Specific Information for Which Confidential Treatment is Sought - § 0.459(b)(1): Telimize requests that the redacted parts of the Application and Exhibits A and B be withheld from public disclosure under 5 U.S.C. § 552(b)(4) and 47 CFR § 0.457(d)(2). Specifically, (i) the Application identifies Telimize’s vendors, (ii) the Exhibits contain proprietary and commercially sensitive information concerning Telimize’s commercial agreements with these vendors and technical diagrams and descriptions showing how Telimize complies with 911 and CALEA obligations, and (iii) Exhibit B includes the pricing and terms of the agreement between Telimize and the vendor that provides Telimize’s homing tandem and routing of local and access traffic (both originating and terminating) to the public switched telephone network (“PSTN”).

2. Circumstances Giving Rise to the Submission - § 0.459(b)(2): Telimize is submitting the Application and Exhibits as proof that (i) it complies with its 911 obligations under Part 9 of the Commission’s Rules, (ii) it complies with the provisions of CALEA, pursuant to section 52.15(g)(3)(ii)(E) of the Commission’s Rules, and (iii) it is capable of providing service within sixty days of the numbering resources activation date, pursuant to section 52.15(g)(3)(ii)(H) of the Commission’s rules.

3. Degree to Which the Information is Commercial or Financial, or Contains a Trade Secret or Is Privileged - § 0.459(b)(3): The Application discloses the names of Telimize’s vendors, Exhibit A provides technical diagrams and descriptions of how Telimize complies with 911 and CALEA requirements, and Exhibit B contains business confidential agreements between Telimize and its vendor. Exhibit B thus includes confidential pricing and technical terms. This information is subject to exemption from public disclosure under FOIA Exemption 4.4. None of this information would normally be made available to the public, and public disclosure would make available to competitors proprietary information that is competitively sensitive and could undermine Telimize’s business strategy. See 5 U.S.C. § 552(b)(4); 47 C.F.R. § 0.457(d) (Commission authorized to withhold “materials which would not customarily be released to the public”). To date, disclosure of the information and documents subject to this request has been limited to certain executives and employees of Telimize and their outside legal counsel, and the counterparties to the agreements provided under Exhibit B.

4. Degree to Which the Information Concerns a Service That is Subject to Competition - § 0.459(b)(4): The market for interconnected voice over Internet Protocol (“VoIP”) is highly competitive with low barriers to entry. The commercial information at issue goes directly to Telimize’s ability to comply with the 911 service and CALEA obligations applicable to all VoIP service providers, and

Telimize's ability to provide VoIP service by interconnecting with the PSTN through its vendor. Thus, this information "concerns a service subject to competition." Accordingly, this information qualifies as sensitive internal business and commercial information entitled to protection under FOIA and the Commission's rules.

5. How Disclosure of the Information Could Result in Substantial Competitive Harm - § 0.459(b)(5):

As the VoIP industry is highly competitive, and the nature of the confidential information is sensitive as to Telimize's relations with its vendors and technical processes, public release of confidential information in the Application and Exhibits A and B would cause significant competitive harm to Telimize. Not only would the identity of its vendors become public, but the substantive terms of its commercial agreements, including pricing and negotiated service terms, will become known to its competitors. Moreover, its processes for complying with regulatory obligations to provide emergency services and lawful interception would become publicly known, which would not only cause competitive harm to Telimize, but would also undermine Telimize's ability to provide safe and secure VoIP services to its end users.

6. Measures Taken by Telimize to Prevent Unauthorized Disclosure - § 0.459(b)(6):

Telimize has limited access to the information and documents subject to this request to those officers, directors, employees, and counsel who require its disclosure in order to perform their duties. Telimize treats the documents provided in Exhibits A and B as confidential and proprietary and has not publicly disclosed this information.

7. The Information Submitted is Not Available to the Public and Has Not Previously Been Disclosed to Third Parties, Except for Appropriately Limited Circumstances - § 0.459(b)(7): To the best of Telimize's knowledge, the information and documentation for which confidential treatment is sought has not been publicly disclosed. Disclosure by Telimize has been limited to those with a need to know, and to those who are subject to professional or other confidentiality obligations.

8. Period During Which the Submitted Material Should Not Be Available for Public Disclosure - § 0.459(b)(8): Telimize respectfully requests that the confidential information in the Application and Exhibits A and B be kept confidential indefinitely given the sensitive nature of this information and the risks inherent in any unauthorized disclosure. It is not clear at this time what potential period of non-disclosure is required in order to protect Telimize's interests.

9. Other Information Supporting Request for Confidential Treatment - § 0.459(b)(9): Not applicable.

Ms. Marlene H. Dortch

For the reasons stated above, Telimize requests that the Commission withhold from public inspection the information identified herein, according it full confidential treatment.
