AMENDMENT OF NUMBERING AUTHORIZATION APPLICATION

Edge Communications Solutions, LLC (“Applicant”), formerly SmartEdgeNet, LLC, hereby amends its Numbering Authorization Application (“Application”) filed before the Commission in the above-referenced matter as follows:

1. Paragraph 6 of the Application is replaced with the following paragraph:

6. As proof of facilities readiness, namely, that Applicant is capable of providing service within sixty (60) days of the numbering resources activation date, Applicant submits that it obtains interconnection with the PSTN pursuant to a commercial arrangement that provides access to the PSTN; in particular, Applicant has an agreement with its carrier partner, Inteliquent, that is in effect, who, in turn, has interconnection agreements that are in effect with all of the relevant local exchange carriers for the states that are the subject of the Application and in which such carriers provide access to the PSTN, including AT&T, Verizon and CenturyLink. Applicant further states that it has in place the practices and procedures that enabled it to successfully route and port numbers as a participant in the Commission’s direct access technical trial; specifically, Applicant has an OCN (159H), appears in the LERG and NPAC in the IPES category, has an AOCN with iconectiv to allow direct access to the BIRRDS system, has a full staff of provisioners prepared for porting and has listed all contact information with the LNPA WG and ATIS.

2. In all other respects, the Application remains as originally filed.

WHEREFORE, Applicant respectfully requests the Commission to grant the Application for numbering resources as amended.

Respectfully submitted,
